## THE LAST TRIBUTES

**FUNERAL OF MERLE ECKLES  
VERY LARGELY ATTENDED  
BY STUDENTS, FRIENDS**

A large company of sincere mourners gathered at the Jewel City chapel Friday afternoon to pay their last tribute of respect to Merle J. Eckles whose untimely death has brought grief to so many young hearts and a shock to the entire community.

The services, which were of a very comforting character were conducted by Rev. Julius Soper, assisted by Rev. Thayer and the music was in charge of Mrs. Dora Gibson, director of the Music Department of the High School, and who like the pupils she led was grief-stricken, and was unusually fine. The trio from Chopin's funeral march was played by her as a prelude, and members of the High School Boys' Glee Club sang "Abide with Me" and "Nearer My God to Thee," with obligato by three violins, the last musical contribution being the playing of "The Long, Long Trail" by the violinists.

The love which the community felt for this boy and their sympathy for the members of his family found expression in floral tributes. Never, seemingly, had such a wealth of rarely beautiful flowers been brought together. Gladioli, roses of every hue, carnations, violets, dahlias, sweet peas and wonderful chrysanthemums were there, banked around the gray casket, completely carpeting the floor beneath it, and forming a frieze half way around the room. A beautiful pillow of white chrysanthemums and ferns bearing the letters G. H. in scarlet carnations found a place on the lid of the casket, a tribute from the school as was also the floral shield of white chrysanthemums and ferns with the floral inscription "1920."

A great part of the simple, unaffected address by Dr. Soper was given to a review of the life of Merle Eckles, from the date of his birth in Arborville, Nebraska, in 1899. He referred to his coming to Glendale with his parents when thirteen years of age, to his school life here and his enlistment in the army in the spring (Continued on Page 6)

## KNIGHTS TEMPLAR FUNCTION

A large delegation of officers and members of the Glendale Commandery, Knights Templar, and Royal Arch Masons of this city, is arranging to attend the reception to be given Saturday evening in the Shrine auditorium, Los Angeles, in honor of Grand Commander Judge Benjamin F. Bledsoe. It will be an elaborate and spectacular affair as all knights will attend in full uniform. It will be followed by the annual Knights Templar ball. Attendance is limited to Knights Templar and members of the Royal Arch and will be one of the most important Masonic events of the year.

## CERRITOS P. T. A.

**INCREASES MEMBERSHIP FROM  
32 TO 165 BY REWARDING  
PROMOTERS WITH CAKES**

A very fine meeting of the Cerritos Avenue Parent-Teacher Association was held Thursday afternoon at the school with Mrs. Eustace B. Moore, the president, in the chair. The speaker of the day was Mrs. Lillian B. Porter, a probation court officer, who discussed the increased truancy among children which has seemed to result from war conditions and how this truancy is leading them into mischief and crime. The courts are very anxious to have the co-operation of the schools and parents in checking this tendency before it becomes confirmed, as it is a serious menace to society.

Several nice musical numbers were given, Evelyn Horning contributing a piano solo. Janice Tuttle sang.

This meeting was the end of a membership drive in which as a spur to endeavor on the part of the children a cake had been promised to every room which was responsible for adding twenty-five names to the P. T. A. enrollment. As a result many cakes were presented and the drive went over the top raising the enrollment from 32 to 165. These new members were present and took an active part in the discussions making a very interesting and enthusiastic meeting.

The committee having charge of the fund for the purchase of a phonograph for the school reported \$80 in hand and it is probable that the phonograph will be purchased in the near future.

## LIFE IN ENGLAND

**MRS. JAMES EWINS' BROTHER  
RETURNS FROM EIGHTEEN  
YEARS' RESIDENCE THERE**

The past week has been an exceedingly pleasant one for Mrs. James Ewins of 615 South Verdugo Road, as she has had the joy of entertaining a brother and his wife, Mr. and Mrs. Joseph H. Haughton, whom she had not seen for eighteen years. They were formerly residents of Providence, R. I., but went to England eighteen years ago for a visit and remained there until now. They were planning to return to America when the war broke out and they were unable to get passports. While the conflict was on Mr. Haughton had charge of a munitions factory. They report that all living costs in England including rents, food and clothing are very high, considerably in excess of figures here. This is a new experience in the British Isles where the expense of living previous to the war was lower than in Canada or the States. British residents are still being rationed on sugar, meat and butter, and there is a good deal of talk about emigration to America. While they were here Mrs. Ewins also entertained her brother, Joseph Brady, and his wife, of Los Angeles. The Haughtons are now in San Diego but will return to Los Angeles in the near future and will probably locate there permanently.

## TO HELP VAN NUYS

A party consisting of about twenty members of the Central Christian Church of this city motored to Van Nuys Friday evening to attend evangelistic services in the new Christian Church just established there under the pastorate of Evangelist Roof. The organization of the church is the result of the services which Dr. Duffee has been holding in Van Nuys for about a year. It now has a membership of seventy which is expected will soon be increased to one hundred. The Glendale people in the party were: Dr. and Mrs. Duffee, Dr. and Mrs. J. H. Daugherty, Messrs. and Mesdames John M. Ray, O. L. Kilborn, Lee Kaster, W. H. Hedges, W. H. Berry, Mrs. Mary E. Shropshire, Miss Clara Hutton, Rev. Clifford A. Cole, W. H. Lyons, George Staub and Fred Thompson.

## STUDIO PARTY

Quite a group of Glendale music lovers had the pleasure of attending a musical and social function given by Miss Belle Vickers at her studio in Hollywood. Miss Vickers is a vocalist, celebrated in Kansas City, who has recently come to Southern California and opened a studio. The recital was a fine demonstration of her own vocal powers and the work of her pupils in a charming program which has been described with enthusiasm by those who had the pleasure of hearing it. Dancing occupied the latter part of the evening and refreshments were served, the studio having been made very attractive with floral decorations. About fifty were present, the Glendale guests being: Dr. and Mrs. A. L. Bryant and family, Mrs. Emma Burket and son, Dana Burket, Mr. and Mrs. R. D. Goss and Mr. and Mrs. William Goss.

## A UNIQUE ASSOCIATION

The Los Angeles Society of Magicians, of which Fred Roberts of Roberts & Echols is a member, is one of the most unique organizations in the United States, one that would scarcely be possible in any other section of the country. It is made up of about fifty magicians, some of whom were on the stage for years and have retired and come to California to spend their declining years. Others, younger members of the same profession, have given up the stage for other lines of work and located in or near Los Angeles. Since Mr. Roberts is a member of this association there will be a special interest in the twelve members who are to appear in Glendale Wednesday evening, at Masonic Temple, under the auspices of the Knights Templar.

## COMMUNITY SING

A good audience was present at the Community Sing Thursday evening, and the rehearsal was much enjoyed, although interrupted by talks on matters apart from the special interest which had brought the singers together. Only five songs were rehearsed, the new ones being "The Wearing of the Green" and "The Wedding March" from Lohengrin. Mrs. Frank Arnold was the much-appreciated soloist of the evening, singing first an Italian Aria followed by "Oh Happy Day."

## RUSSIAN PROPAGANDA

**ATTORNEY GENERAL'S OFFICE BEGINS CAMPAIGN  
AGAINST ORGANIZATION SEEKING OVERTHROW  
OF U. S. GOVERNMENT**

(Special Service to Glendale Evening News)

WASHINGTON, Nov. 8.—Assistant Attorney General Carvan announced today that last night's raids on radical meeting places in nearly a dozen eastern cities marked the beginning of a nationwide campaign designed to suppress the union of Russian workers.

Carvan revealed that he was in possession of a copy of the organization's constitution showing that it has thousands of members pledged to bring about a revolution in the United States and the socialization of industry.

He said the organization had been perfected throughout the United States and had been in existence ten years. It was formed through the efforts of William Szatow, now chief of police in Petrograd. In last night's raids arms, parts of bombs and quantities of literature were seized.

Carvan said the organization had all its preparations made for its government to take over the administration of affairs of the United States as soon as the American government is overthrown. He says the organization's constitution as it stands was adopted in Detroit in 1914 when a convention was held attended by delegates from practically every American city.

The department said that more arrests would be made today and that the campaign would continue until it was no longer necessary. Arrests were made last night in Chicago, St. Louis, Philadelphia, Newark, Jackson, Mich., New Haven and Hartford, Woodbury, New Britain and Ansonia, Conn. Over one thousand persons were arrested and 616 of these are still in custody. Many known anarchists were not arrested, but their headquarters were cleaned out and they are now fugitives in the open.

## REPORT ON STEEL STRIKE

**SENATE INVESTIGATING COMMITTEE MAKES RECOMMENDATIONS AS TO INDUSTRIAL LEGISLATION**

(Special Service to Glendale Evening News)

WASHINGTON, Nov. 8.—The Senate Steel Strike Investigating Committee reported to the Senate today declaring that labor must rid itself of ultra radicalism if it expects to hold the nation's confidence. The report that radicals had used the steel strike to further their interests. It recommended:

The establishment of a body similar to the War Labor Board to investigate industrial disputes; Americanization legislation; federal aid to workers an antidote to unrest; a law requiring emigrants to learn English within five years after arrival; strict laws curbing anarchists and revolutionists.

The report criticized William Foster, leader in the steel strike.

## INSTRUCTED TO CALL OFF STRIKE

**JUDGE ANDERSON ISSUES ORDER TO UNITED MINE  
WORKER OFFICIALS EFFECTIVE NOVEMBER 11TH**

(Special Service to Glendale Evening News)

INDIANAPOLIS, Nov. 8.—Officials of the United Mine Workers of America today were ordered by Federal Judge Anderson to withdraw their order calling out 400,000 members on strike. The union leaders were allowed until six o'clock November 11th to withdraw the strike order.

Before the hearing on the strike injunction opened this morning attorneys for the strikers asked for a week's postponement saying they had information which caused them to believe it would be settled out of court. Assistant Attorney General Ames refused to agree to this. Ames presented affidavits from government officials showing the railroads are operating at a loss and are in danger of losing additional revenues if coal supplies are stopped.

## U. S. ARMY ACTIVITIES IN FRANCE

**THEY WILL END DECEMBER FIRST AND THE LAST AMERICAN SOLDIERS WILL BE HOME BY CHRISTMAS**

(Special Service to Glendale Evening News)

PARIS, Nov. 8.—The last American soldier will be home by Christmas, the War Department announced today. All activities of the American Army in France will end December 1st. The American base at Brest will be maintained until December 15th when the last soldier will be homeward bound.

## EARTHQUAKE IN TIBER VALLEY

**COMMUNICATION CUT OFF BUT HUNDREDS OF INHABITANTS ARE KNOWN TO BE HOMELESS**

(Special Service to Glendale Evening News)

ROME, Nov. 8.—An earthquake rocked the upper valley of the Tiber yesterday. It is feared the casualties were heavy. Communication has been cut off, but it is known that hundreds are homeless.

## CONTRABAND SHIPMENT OF ARMS

(Special Service to Glendale Evening News)

DUBLIN, Nov. 8.—British agents searched two American steamers yesterday for arms and munitions consigned to Sinn Feiners.

## HOW THEY DO IT

**DOUGLAS FAIRBANKS GIVES  
TROPICO DISTRICT A TASTE  
OF REALISM**

There is no question about the popularity of Douglas Fairbanks in Glendale, but appreciation has not been so precious to him that he has given benefit performances. He did, however, Wednesday night in the Tropico district which turned out en masse to see and applaud.

He was staging a scene in a new play, a thriller of thunder, wind, lightning and threatened death. For some mysterious reason which the play might reveal, the yard of the Tropico Lumber Yard was selected as the setting for the action in which "Doug," in evening togs, figured as the hero rescuing the heroine from a watery grave at the sacrifice of his clothes. The railway train on which the hero is riding is overtaken by the storm and stopped by the flood from which the rescue is effected. Some people might wonder how it could be done in the prosaic Tropico lumber yard, but to a movie director all things are possible as, for instance, the running of a car onto a lumber yard spur, building a cement tank alongside to hold the flood waters from which the heroine was rescued. The storm was easier still, just a pipe run up over a tall pile of lumber to discharge the rain and a set of airplane propellers to provide the wind. It worked out fine and the heroine was flung onto the train in proper shape. The only hitch in the performance was when one of the supers who turned on the rain and who wasn't a "Hatfield" got struck on the head by one of the propeller arms and was carried to a hospital unconscious. Art always takes its toll, however, and the more faithful the portrayal the heavier the toll. It is currently reported that the production of the scene cost \$10,000.

## HOUSE BUILDING EVENTS

The Bentley-Schoenemann Company are beginning to feel at home in their handsome new quarters on the corner of Maryland and Broadway and appreciate the extra private office they now have. They report business very good with several jobs just being finished up and others just commencing. A four-room Colonial house they have just finished on Elk avenue for Roger Bentley was sold before it was completed.

They are about to deliver to the owners several Eagle Rock houses. One of these is a \$7000, two-story, twelve-room house of Swiss chalet design which they have built for Mr. Paul.

For Mr. Candee, who is the city clerk of Eagle Rock, they are building a five-room Colonial house.

Another Colonial house of six rooms is being built on Isabel street between California and Wilson streets which they are building for Mr. Howarth. It is just about ready for plasterers.

## MRS. GEORGE FISH ENTERTAINS

Mrs. George Fish recently entertained at her pleasant home at 321 Hawthorne street with a social afternoon in honor of Mrs. Wallace Haines and Mr. Haines' mother, who are residents of Chestnut street, this city. The ladies who enjoyed the hospitality of Mrs. Fish, besides the guests of honor, were: Mrs. Oamans, sister of Mrs. Wallace Haines, and her little son, Mrs. Geo. Adams, Mrs. Annie Williams, Mrs. E. H. Willisford. At the close of the afternoon the guests gathered around a very prettily-appointed table centered with chrysanthemums and were served with delicious refreshments by the hostess.

## DEATH OF JOHN HARTER

John Harter of 332 North Kenwood, who has been in ill health for several years, passed away Friday afternoon, November 7, 1919. He was born in New York in 1861, but most of his business life was passed in Toledo, Ohio, to which city his body will be sent for interment Monday morning. He leaves a widow, Mrs. Pauline Harter, who is in frail health, and two stepsons, W. A. Schickler, who resides at 332 North Louise street, this city, and Henry Schickler, of Toledo, Ohio. Deceased had been a resident of Glendale for about six years and had accumulated a circle of friends here by whom he will be much missed. His remains are now in charge of the Jewel City Undertaking Company, but no funeral services will be held here.

**WEATHER FORECAST:** Fair tonight and Sunday. No important change in temperature.

## MORELAND PARADE

**BRIGHT NEW TRUCKS BEARING  
PACKER & WHITE BANNERS  
BRIGHTEN GLENDALE STS.**

Glendale streets were brightened and the general gaiety promoted Friday by a parade of shiny, new, red Moreland trucks, put on by Packer & White Auto Company of this city, who have been appointed distributors for entire San Fernando Valley for these desirable motor vehicles of trade. They made a very fine appearance and appeared to deeply and favorably impress all beholders, to whom they are but the forerunners of the thousands of similar trucks which will before long be turned out by the Moreland Plant just over the Glendale line in Burbank, but in which Glendale feels a certain proprietary interest because of the close, friendly relations and business interchange of the two communities.

After traversing Glendale thoroughfares the machines left for a tour of the valley in which they visited Burbank, San Fernando, Van Nuys, Owensmouth and Chatsworth, leaving trucks at several points for inspection and demonstration.

## HOT AIR

**TALES OF BIG ENLARGEMENT  
OF TILE WORKS CHARACTER-  
IZED AS "PURE BUNK"**

The Glendale Gateway has had easy dreams of vast wealth which was to come to it from an industrial center which was about to be started by the Pacific Tile Works. That institution, according to tales published in a Los Angeles paper was planning to vastly increase its productive capacity under new management, and to import 1000 to 1500 workmen who, with their families, would make a very desirable increase of population to be fed, housed and clothed.

But—a visit to the factory in search of details brought forth a sour denial that any such development is in contemplation, in fact, it was characterized as "pure bunk." No change in ownership nor management has taken place, it was declared, and the business will be conducted on about the same lines as in the past.

They of the office force admit there is a larger demand than they can supply for their staple products, sewer tile, tile and architectural terra cotta, that there is an immediate market for all they can turn out, but because of high cost of construction they consider it an inopportune time to enlarge their plant. Shortage of labor would also discourage the plan. They say their present employees for the most part have been with them for years, they live in the district and own homes there, and are dependable. Wages have been advanced but to no such extravagant figures as transient labor in harvest fields is demanding, because their employees have work the year around. Briefly, their policy will be to run the plant at capacity and employ all the skilled labor they can find a place for.

## HELD IN NEW YORK

**CLARENCE SMITH UNABLE TO  
SAIL FOR CHINA ON ACCOUNT  
OF LONGSHOREMEN'S STRIKE**

Mrs. A. L. Bryant has been advised by her nephew, Clarence Smith, who is very well known here and who is now in New York, that he was a guest at a complimentary dinner given at the Biltmore recently in honor of Herbert Hoover. Clarence had expected to be on his way ere this to China where he is to represent at Shanghai an American mining company, but as all vessels are tied up in the New York harbor on account of the strike of longshoremen, he has been unable to leave. He writes that six hundred vessels are now waiting to be moved, and that we know nothing about it here or the high cost of living either; that everything there is higher and harder.

## RED CROSS ACTIVITIES

Mrs. George Whitaker, Chairman of the Red Cross Drive, reports that it is proceeding in a very satisfactory manner. No house to house canvass is being made, but public-spirited, patriotic members are renewing their membership through the schools and the banks who receive and turn in the money to the treasurer of the organization.

## DON'T LET PERSONAL PREJUDICE GOVERN

At next Wednesday's bond election personal prejudice should not be allowed to interfere with the voter's decision when such an important issue as water distribution is at stake. You may not agree on all questions with those having authority in municipal affairs but the future welfare of Glendale depends upon the way this question is settled.

The improvements to the water distributing system as outlined are very badly needed and every vote against the bonds is a blow at the very life of the city and every resident and property owner within the city.

You wouldn't betray your country because you do not agree with the President and others in authority on all questions. The same principle of patriotism is at stake here. Citizens, don't let anything personal enter into this matter. It is one of the most vital questions that ever came before the voters of Glendale. If we are to survive as a city this question of adequate water distribution must be settled. Let us do it now.

# Electrified Water

## BOTTLED IN GLENDALE 55c a Bottle

Water, no matter how carefully handled, is bound to gather impurities—from the air, the soil and from pipes and other containers.

For drinking purposes and other uses where absolute purity is essential, our Electrified water, bottled in Glendale at the factory where Sierra Club beverages are made, fills a need.

Many people appreciate the fact that they can get Electrified water delivered to their homes from a well known local factory and patronize our service continuously.

Are you one of these? Do you use Electrified Water bottled at the Sierra Club factory? If not call Glendale 309 and have a bottle delivered to your home.

# Henry-Brown Co.

## STARTERS FOR FORDS

OVER THREE THOUSAND A DAY IS RECORD OF OUTPUT, SAYS MANAGER GRAVES

Ten months ago the Ford Motor Company was not manufacturing electric starters; today the output of its starter department is greater than that of any other manufacturer of electric starting devices in the world. Its nearest competitor makes one thousand a day whereas the Ford Company's output is over the three thousand mark, according to B. L. Graves, manager of the local branch of the Ford Motor Company.

The Ford starter—and generator, for it is really two separate units—is not the result of a new idea or of a sudden decision. More than eight years ago Henry Ford's vision saw the need, and his electrical engineers were instructed to begin experimenting. After seven years of constant research, three trial jobs were built. These were tested in many different ways. Still the engineers continued their experiments and improvements.

Then came the order from the Government for 15,000 three-ton tanks. A starter was essential, so the one now being installed on Ford cars was evolved. Ford engineers say that although the entire system—starter and generator—weighs only thirty-one pounds it produces a higher torque output (constant rotary motion) pound for pound, than any other system on the market.

When the department for building the starting and lighting systems first began production, fifty hours' labor was charged to each unit, but now that machinery and equipment have been installed, the time per unit is four hours.

The power from the starter to the motor is applied through the well-known Bendix drive, which automatically engages the starter and then, once the motor is started, the starter immediately disengages. It is equipped with oilless bearings and needs practically no attention.

Within another thirty days or six weeks, the Ford Company expects to be making enough starters so that every Ford car will be equipped with the new electric starting and lighting system.

## CARE OF THE STORAGE BATTERY

The storage battery has been developed to such a high state of perfection that many auto owners are unconscious of the presence of a battery in their cars. Considering the abuse and neglect that a battery often receives, it is remarkable that it continues to function properly.

When trouble results, it is usually due to the forgetfulness of the driver in attending to the simple things necessary to the life of the battery. Should the owner neglect to keep the motor supplied with sufficient oil, he is not surprised if it fails to run smoothly. He knows that lack of water in the radiator, for instance, means an overheated motor.

And, yet, there are owners who, particularly careful about motor lubrication, abuse their batteries.

Storage batteries, after all, are like human beings. They are chemical—not mechanical. Their elements undergo a constant change. They can suffer from neglect, starvation, overwork, overheating and overfeeding. The crucial period of their lives is in early life.

The storage battery is the heart of the electric system. It is the reservoir into which the electrical energy made by the generator is stored for ignition, lighting and cranking the motor.

And, as its life depends on the care it receives, it should be the duty of every owner to see that his storage battery is in the best of condition at all times. By observing simple rules, he can assure himself that his battery is serviceable and dependable.

Always keep the battery cells filled with distilled water to a level one-half inch above the top of the plates. Never fill the cells full. Look into all cells frequently, just as you do your radiator. A battery cannot be filled and then expected to function indefinitely without further attention. The filling should be done frequently rather than on specific dates because the evaporation of the liquid is affected both by atmospheric conditions and driving.

Without water the plates become hard and are rapidly overheated by the charging current. Filling the battery too full, however, is as unwarranted as not filling it full enough. Too much water makes the acid overflow and eat away the wood case. Always be sure that the distilled water is pure. Never allow it to come in contact with metal. Distilled water may be obtained at the service station or at any drug store.

It is never necessary to add acid to your battery when it is functioning properly. While discharging, the acid is absorbed by the plates; while recharging forces the acid out of the plates into the solution again. Only the water is evaporated.

The battery and battery compartment

should always be kept clean, bright and well covered with vaseline to prevent corrosion.

A fully charged battery will not freeze at any ordinary winter temperature, but a discharged battery will freeze at a little below 32 degrees F. Be sure to take hydrometer readings regularly. The gravity

should always be up to at least 1.275. If you lay up your car, the battery should be removed and placed in storage, where it may be kept charged.

Another precaution in battery care is to be certain that there are no leaky cells in your battery. When filling, if one cell takes considerable

more water than others, this indicates that jar leaks. Unless repaired immediately, the battery may be ruined.

It is advisable to keep in touch with the nearest battery service station. It is naturally to the best interest of the battery manufacturer to see that the battery is working as it

should. The service station man will make an examination of the battery and tell you its exact condition. He will explain its relation to the rest of the electrical system and how your driving in summer and winter affects the battery.

You cannot expect too much of

him, however, if you neglect to show the respect your battery deserves. Watch the water in your battery as carefully as you do the oil in your engine or the water in your radiator. Attending to the simple things will prevent much inconvenience and trouble later.

## Tested 250,000 Miles Three-Point Cantilever Springs Greatest Improvement Since Pneumatic Tires

OVERLAND 4 has been put through the most thorough and severe test possible.

250,000 miles of mountain trails, desert sand, heat, cold, mud and dust, demonstrated the quality of every part of the car long before we began manufacturing.

This remarkable test showed conclusively that Three-Point Cantilever Springs, exclusive with Overland, are the greatest improvement in riding comfort since the introduction of pneumatic tires.

They protect the car from road shocks and prolong the life of every part.

They enable the wheels to hold better to the road. They give

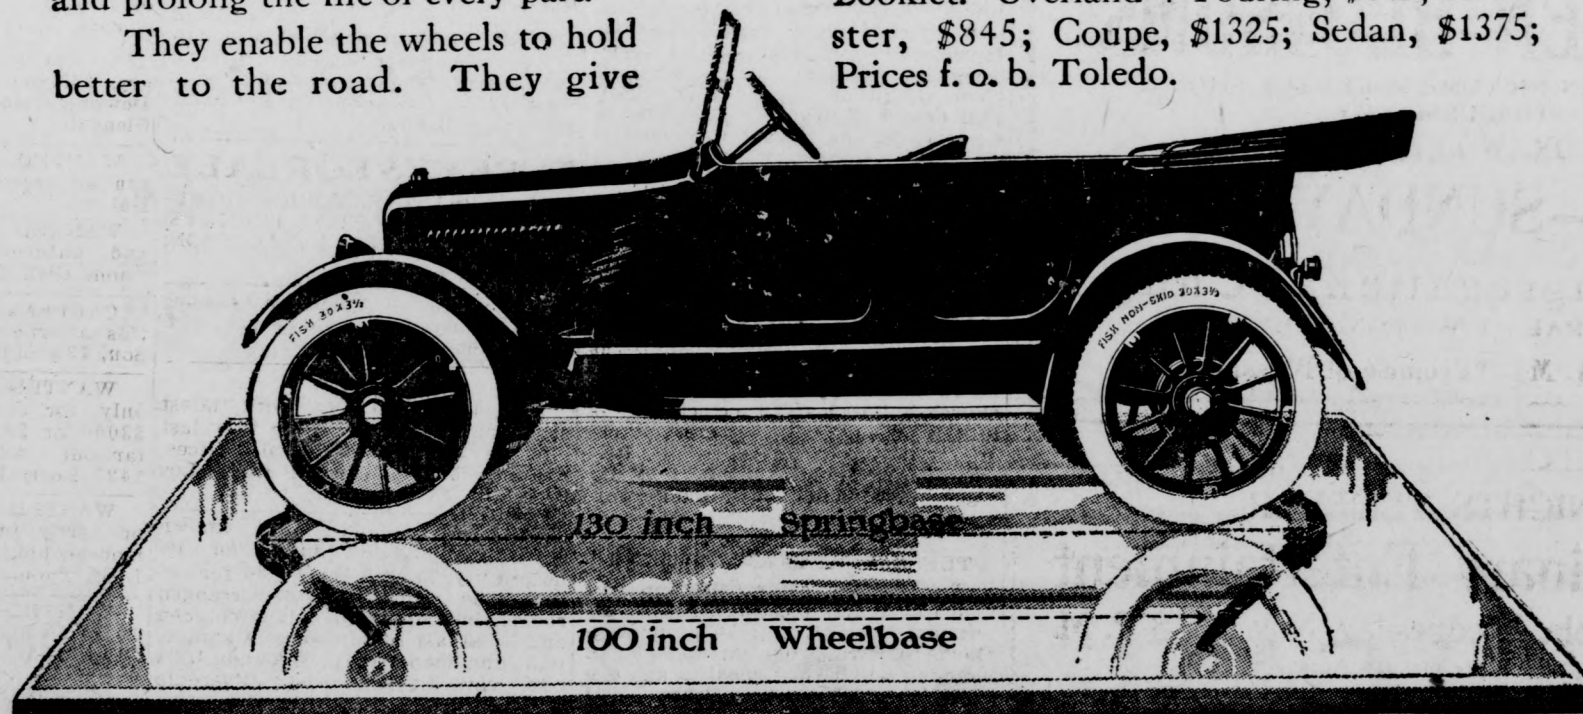

greater comfort under all road conditions.

They do away almost entirely with side sway and rebound which twist and rack the car.

Diagonal attachment of the Three-Point Springs at both ends of a 130-inch Springbase gives the steadiness and smooth riding of the heavy car of long wheelbase.

Equipment is complete from Auto-Lite Starting and Lighting System to Marshall Divan Spring Upholstery.

Come in and see this car. Ask for Booklet. Overland 4 Touring, \$845; Roadster, \$845; Coupe, \$1325; Sedan, \$1375; Prices f. o. b. Toledo.

## THE ARM SIGNALS

### DRIVERS OF DELIVERY WAGONS AND TRUCKS SLOW TO OBEY THE LAW

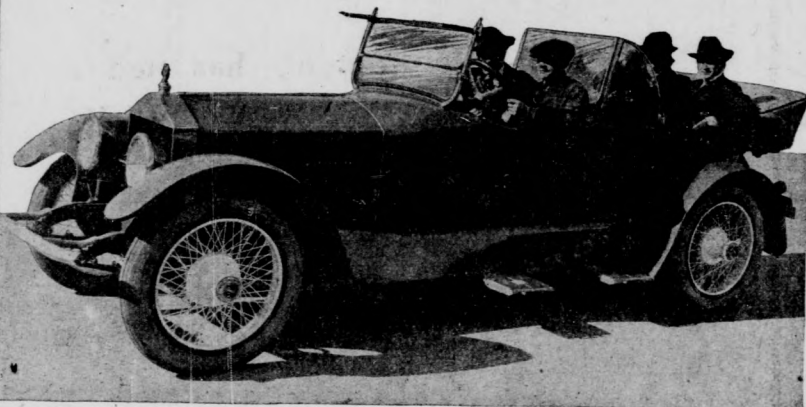

That delivery wagons and trucks on urban and rural highways in the southern part of the state are not paying enough attention to the new rules for arm signals is a contention of many members of the Automobile Club of Southern California.

In fact, several complaints have been filed with the organization, according to its officials, stating that truck drivers and delivery boys evidently never heard that an arm or hand signal is the correct thing. They go slewing around corners, state the complaints, as though they were privileged characters who are not called upon to comply with the law.

Whether or not it is just plain bone-headedness on the part of the operators of some commercial vehi-

## ROAMER

"America's Smartest Car"

There is not an owner or lover of motor cars that has not at some time dreamed of a car he would like to have built all his own. No matter what cars he has driven, he has had this fanciful dream as he toured, in the garage, at table and most of all when he talked with his friends. He has built this car, first, to satisfy his eyes, and gratify his personal pride in the possession of something out of the ordinary—away from the commonplace—the mechanical construction, the lines and finish of the car that would just suit his desire.

Mentally he has constructed this car over and over again to fit his personality and taste, though forced in reality to accept the dictates of the maker.

The ROAMER, "America's Smartest Car," is the ideal car to fulfil the dream of the motorist.

# Ford

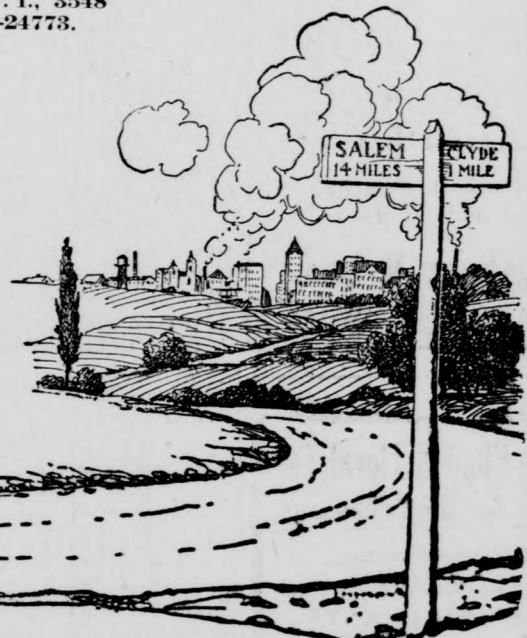

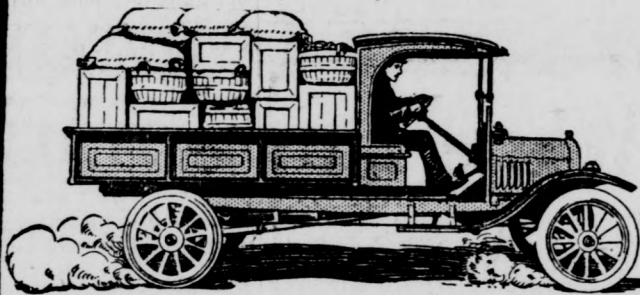

## THE UNIVERSAL CAR

During all the years the Ford Model T One Ton Truck has been on the market, we have never had one complaint of rear axle trouble. We have had no complaints of motor trouble. As the motor and the rear axle are the vital fundamentals in a motor truck, we have the right to conclude that the Ford One Ton Truck has not only met the demands of business, but has done so in a satisfactory and economic way. There is no other evidence so convincing as that which comes from long practical experience. Ford One Ton Trucks are serving along all industrial and commercial lines. You will find them everywhere. If these statements were not facts, the demand for the Ford One Ton Truck would not be as large as it is, because people are not buying trucks which do not give service. Coupled with the dependability of the Ford One Ton Truck in all classes of usage, comes the economy in operation and maintenance. On the farm, in factory delivery, for the merchant, manufacturer, and contractor, in these days of modern business methods, this worm-drive One Ton Ford Truck has become an actual necessity. Leave your orders with any of the Authorized Dealers mentioned below, and you will be assured of prompt attention.

cles or whether it is an exalted idea of their importance which compels them to omit any signals whatsoever, has not yet been determined by the authorities, but Auto Club officials are convinced that the law must be obeyed by every driver whether touring or commercial, and the authorities are going to start a strenuous campaign of arrests to that end.

As a general rule, the Club points out that the new hand signals have been carefully adopted by Southern California motorists with the exception of some truck drivers, and all commercial corporations having trucks in the field are being urged to impress upon their drivers the dangers arising from failure to give the correct signals.

## SIGN POSTING

62,141 GUIDE SIGNS ON THE ROADS OF SOUTHERN CALIFORNIA

Whether or not the sign-posting of highways so that motorists will not lose their way is an Augean "job" or not is indicated by the latest report issued from the Automobile Club of

Southern California on the subject. It is shown that to date the automobile organization has erected 62,145 guide signs on the roads of Southern California and on the routes leading to this part of the state from across the continent.

By the end of the fiscal year, it is estimated that the Auto Club will have placed 67,500 sign-posts for the safety and guidance of local and visiting motorists.

A "figure fiend" has doped it out that if these metal signs were placed together, point to point, they would stretch from Santa Barbara, California, to San Diego, with sixty miles left over. They would make a solid wall eighteen inches high along the entire Mexican border from Texas to the Pacific Ocean. They would put a solid metal roof over the Panama Canal.

During the month of October the club trucks covered 10,000 miles in erecting signs and replacing old ones which had been shot down by miscreants. It is estimated that one department of the Auto Club, that for the sign-posting work, covers more than 100,000 miles annually in safeguarding motoring interests.

At the present time the organization is engaged in completing the sign-posting of the desert regions around and in the famous Death Valley. Trucks are also at work in San Diego county, putting up new signs. Work is also to start at once on maintenance in the Imperial Valley. All Army Posts and Aviation Fields for the Government will also be signed.

This system of signposts is the most complete and the most famous in the world, and is made possible by the automobile owners of Southern California, it is pointed out in the report.

The San Diego county marriage license bureau "held its own" during October. 140 licenses were issued this year as compared with 137 last October.

A small local earthquake was felt in the San Juan Hills in Monterey county, in October, according to reports from that district.

Advertise it, or advertise for it in the Evening News.

## SEVERE TESTS

E. J. JACKSON ENTHUSIASTIC DEMONSTRATOR OF THE NEW OVERLAND FOUR

The E. J. Jackson agency is greatly enthused over the new Overland Four that has recently been placed on the market. Mr. Jackson takes great pride in showing and demonstrating the car and relating the severe tests which the new four can withstand. Even before the car was manufactured, he says, the quality of every part of it was tested in a 250,000-mile trip over mountain trails, desert, heat, cold, mud and dust.

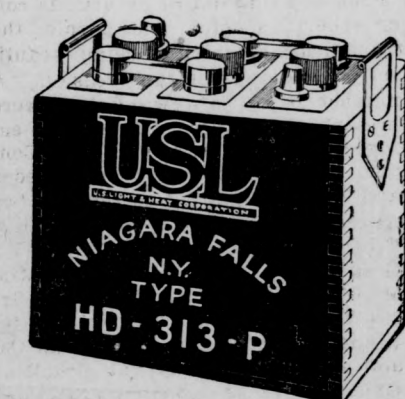

"The three-point cantilever

springs," says Mr. Jackson, "are a wonderful feature of this new car. They protect the car from road shocks, enable the wheels to hold better to the road and do away almost entirely with the side sway and rebound which twist and rack the car."

"Another feature that drivers will appreciate is the small space necessary to turn the car. The equipment of the Overland Four is complete from Auto-Lite starting and Lighting System to Marshall Divan Spring Upholstery."

The 80,000 acres of potatoes grown in California annually require considerably more than half a million sacks of seed potatoes.

## No Battery Troubles if You Use USL Service

Register your battery for regular inspection at the USL service station. USL service stations are equipped with every facility to recharge and repair any make of storage battery.

Repairs made by USL service stations are backed by a 15 month's guarantee.

Bring in your battery which you have been told is "worn out," "dead," or "shot" and have us put it in first class condition for you.

## Personals

W. H. Harrison, of 204 East Cypress, has gone to Sanger to live with his daughter, Mrs. C. H. Sloan.

Miss Vera McPherson, who is teaching in Bear Valley, is coming down to spend the week-end, Monday and Armistice Day with family and friends in Glendale.

Mrs. A. A. MacIntyre and her daughter, Mrs. Bondeaux, Friday afternoon entertained members of the Foster Bridge Club at the MacIntyre home on Central avenue. Very nice refreshments were served at the close of play.

L. C. Rapp, formerly of Palmer avenue, has just moved into his beautiful new home on Patterson avenue, and thus become a permanent citizen. Mr. Rapp has long been prominently connected with Cooper, Coate & Casey, an exporting dry goods house of Los Angeles.

Rev. and Mrs. E. H. Willisford and their daughter, Joy, were the guests Thursday of Mr. and Mrs. George Wright, who took them for an auto ride to Universal City, after which they were dinner guests in the Wright home and also their guests at the moving picture show at the Palace Grand in the evening.

Chas. Stanford has purchased from R. E. Wheeler three adjoining lots on Patterson avenue, on which he will immediately begin the erection of three modern Colonial bungalows. Great activity is reported in the transfer of property on this street, no less than nine homes having recently changed hands.

The regular meeting of the City W. C. T. U. was held Friday afternoon at the home of Mrs. John Paul at 233 South Orange street. There was no special address and the meeting was social in character and discussed plans and aims of work. Mrs. Mole, a W. C. T. U. worker from New York, was present as a guest.

Mrs. H. M. Goss of Windom, Minnesota, arrived Friday to spend the winter in the home of her son, H. D. Goss, of East Harvard street. Mrs. H. D. Goss is expecting her parents in the near future, Mr. and Mrs. T. M. Dryden, who also live in Windom. They will come in time for Christmas and remain for the balance of the winter.

Miss Helene Morgan, of 124 East Acacia avenue, this city, as pianist, gave the musical program provided for the meeting of the Hollywood Woman's Club Wednesday afternoon. It included Sgambatti's "Toccata," Liszt's "Sposalizio" and "Frolic of the Waters" by Ravel. Miss Morgan also played before the Matinee Musical Club of Los Angeles October 16th.

## CHAPTER L ENTERTAINS

A very delightful P. E. O. meeting was enjoyed Friday afternoon at the home of Mrs. Claud Case on Maryland when Chapter B. A. entertained Chapters L. and A. H. The ladies gathered at 2:30 and enjoyed a very pleasant program to which Mrs. Frank Arnold contributed vocal numbers, singing most beautifully. A short but fine talk on Americanization was made by Mrs. Charles H. Toll. On behalf of B. A., Mrs. Case welcomed the guests and responses were made by Mrs. H. E. Bartlett and Mrs. William C. Wattles, presidents of the chapters who were being entertained.

Chapter B. A. was organized by Chapter L. and has always been regarded as a daughter organization. It was therefore deemed fitting that the remainder of the program should be given by the "Grandchildren of Chapter L." It consisted of two duets by Shirley Preston and Rebecca Brant, two beautiful fancy dances by Margaret Brown, some original poems by Joy Willisford, and a piano solo by Glen Cunningham, all of whom were children of members of Chapter B. A.

Interesting games were played which brought the guests together in groups and while thus associated refreshments were served.

## MISS VAN OSDOLL ENTERTAINS

Miss Emily Van Osdoll was hostess at a delightful dancing party which took place at her home, 612 East Elk avenue, Thursday evening. Violets and dahlias were employed in the carrying out of an artistic color scheme of pink and purple, the Van Osdoll residence being beautifully decorated for the occasion. A number of out-of-town guests were present, the full list of those who enjoyed the function being: Mr. Conger, Miss Eager, Miss Ollie Veeder and Miss Margaret Goodwin of Los Angeles; Mr. Freer and Walter Freer, Miss Viola Bruen and Jess Franklin of El Monte; Mr. and Mrs. M. D. Burk, Miss Bernice Hahn, Irvin Van Osdoll, Emil Kiefer, Miss Leone Shattuck, Mrs. W. M. Van Osdoll and Miss Dorothy Van Osdoll of Glendale. Miss Hahn graciously contributed piano numbers and sang as did also Miss Veeder. Refreshments were served at the close of the evening.

## MASONIC NOTICE

On account of the Armistice Day celebration Unity Lodge, No. 368, F. and A. M., will not convene next Tuesday evening, but will confer the First and Second Degrees Saturday evening, Nov. 15th, at 7 p. m. A. W. Tower, Sec.; R. W. Masters, W. M.

# Voters Should Make Investigation

By voting for the water bonds next Wednesday Glendale can add a value of \$260,000 to her water system without any cash outlay in taxes. The department is able to pay the interest on the bonds and pay off the bonds as they become due. The improvements proposed are so badly needed that to vote against the bonds would be shortsighted. Every voter is under obligations to investigate this matter for himself.

Amount of Bonds.....	\$260,000.00
To be expended as follows:	
Pumps .....	\$ 36,500.00
Reservoirs .....	48,000.00
Pipe lines .....	123,050.00
Wells .....	32,000.00
Additional Gravity Shares..	10,000.00
Hydro Electric Plant.....	10,000.00
Bonding Capacity of Glendale .....	\$1,200,000.00
Bonds Outstanding .....	494,250.00
Remaining Bonding Capacity .....	705,750.00

## Come to the Mass Meeting Monday Evening, November 10, at the High School

and hear what Col. Thornton, James Neill, Owen Emery and Dwight Stephenson have to say on the subject.

ELECTION NOV. 12, 1919

## PROSPERITY

In these days of money-making don't be fooled into putting your surplus into wild-cat oil stocks or mining schemes of which you know nothing whatever.

Rather, now is the time to seal the future of your family and yourself by "salting away" your savings. One of the best ways to do this is in a Provident Endowment. The investment part of the contract is returning 5% with absolute security and the protection part may be the means of conserving every other dollar you possess.

Premiums can be paid in a single sum, if desired, or in 10 payments, discounted. It will surprise you to know how much you can save in this way.

## PATRIOT AND CITIZEN

James Bailey Hickman, who passed away Thursday night and whose body will be laid to rest Monday morning in Forest Lawn Memorial Park with fitting ceremonies by his comrades, members of the local G. A. R. Post, had a more than usually eventful life, and it is believed the following details will be read with interest by the large circle of friends he made during his twenty-two years of residence in this city:

"J. Bailey Hickman was born in Snowhill, Worcester county, Maryland, June 30, 1832, and was by profession a marine and mechanical engineer plying his work on the Ohio and Mississippi Rivers until 1862, when he enlisted in Company E, 65th Regiment Indiana Infantry, and served until the close of the Civil War.

"He rose from a private to First Lieutenant and was commissioned as Captain at the close of the war; and was slightly wounded at the Kennesaw engagement, but lived through all the terrors of the times and received his discharge at Greensboro, North Carolina, June 22, 1865, returning then to his pre-war occupation, which he followed until twenty-five years ago when he retired from such active work.

"He went to Colorado to make a permanent home, but like all people of the present century, his vision was still toward the west, and he came to California in 1897 settling in what was then known as Tropic, Los Angeles county, where he resided the remaining years of his life.

"Although Mr. Hickman had lived more than the allotted years of man, he was robust and hearty, until a few months before passing away, and to those with whom he came in daily contact he always showed a cheerful countenance and pleasant smile. His was a nature genial, honest and philanthropic. He loved honesty, patriotism and loyalty above all virtues, and was an advocate of brotherly love, ever striving to shape his walk in life by the Golden Rule.

"His loyalty to family, friends, neighbors and country is proverbial, he lived and toiled for them, always happy, knowing that any act of his had brought pleasure to another heart.

"He was a faithful, loyal member of N. P. Banks Post (170) of the Grand Army of the Republic, and was one of the ruling spirits of that society; his country, for which he offered his life in its peril was dear to him, and its flag was treasured as a sacred trust, a trust never to be forfeited to an enemy, but preserved with his life's blood if necessary.

"His comrades of the G. A. R. were very dear to him, and he gave them cheer by his presence at their council board, and the vacancy left by his passing will ever carry, to the comrades left, a remembrance of a heart faithful unto death, and no greater monument can they rear in their hearts to him than the thought, 'He was always true.'

"To his immediate family he was more than father—and was cherished with a love that was devoid of all selfishness—a love of sacrifice that will in time give comfort and consolation to their hearts. The daughters, Mrs. Adelaide Imler, Miss Cora Hickman, and son, J. J. Hickman, were faithful to all requirements, giving love, strength and care that his life might be extended, but it was not to be; he had grown weary on his journey; the harvest was ripe; the wheat was to be garnered, so he gently fell asleep amid the sheaves—and rests securely in the arms of the Harvester.

"In the passing away of J. Bailey Hickman, the daughters, son and grandchildren have lost a loving parent and guide; the G. A. R. a faithful member; the neighbors and friends a true, sincere companion; and the city in which he lived an honest, Christian citizen.

"Born on the shores of the Atlantic, and under the beautiful blossoms of the land of sunshine and flowers, lulled in gentle sleep by the waves of the Pacific, we say: 'Comrade, farewell.'"

Mr. and Mrs. Frank Webster have sold their property at 1258 South Maryland avenue and are building a new home on Orange street in Glendale.

The Glendale Laundry has had a steady growth and at present we are enlarging our plant nearly one-third. Back up one of Glendale's largest industries.

## RUN TO OREGON

J. A. ARMSTRONG AND CHARLES SCHIMMELFENG MAKE QUICK AUTO TRIP TO ASHLAND

J. A. Armstrong, of the Armstrong & Leeds Automobile Repair Shop on West Harvard near Brand, has returned from an auto trip to Eugene, Oregon, in company with Charles Schimmelfeng, who wished to look at some timber in that state. They were gone only fourteen days and spent practically a week in Oregon. It will be seen that they did some fast driving.

Mr. Armstrong says the rainy season had started in Oregon, and the roads were beginning to be heavy, but this side of the range it was dry and nice. In the matter of roads a considerable improvement is going on in that part of the country, he says. Inside of a month, he states, paving will be completed over the Siskiyou and there will be a good highway nearly to Ashland. Between Medford and Eugene it is bad and between Grant's Pass and Roseburg it is almost impassable, but they are now working on that road. Business seemed to be good in all the towns they visited, he said. Eugene was flourishing and the lumber mills running three 8-hour shifts a day, or the whole 24 hours. There is a demand for all the lumber they can turn out.

Relative to fruit which is a big crop in that country, he declared, the products of many orchards apparently were a drug in the market for he saw the fruit gathered in great piles and the hogs being turned in to eat it.

Mr. Schimmelfeng came to Glendale from Pennsylvania a short time ago and bought a home on Lexington Drive. The car in which he crossed the continent, a Buick, was the one in which he and Mr. Armstrong drove north but they gave it a thorough overhauling before they started, and made the entire trip with an expenditure of only one quart of lubricating oil. In the matter of gasoline their average was 13 to 19 miles to the gallon.

### STATE NEWS

(By United Press)

PASADENA, Cal., Nov. 7.—Yone Noguchi, famous Japanese poet, will speak tonight on "Japan Today" at the Y. M. C. A. auditorium under the auspices of Throop college.

Great interest has been shown in the coming of the Japanese speaker, owing to the prominence the Japanese question has had in America, and particularly California during the last few years.

It is expected that Noguchi will touch somewhat on the Shantung and Korean issues, though it is not known to what extent.

STANFORD UNIVERSITY, Cal., Nov. 7.—Miss Kirby Ingoldsby, first woman student to be elected to the American Mechanical Engineering Society, has been initiated into the local chapter of that organization. Miss Ingoldsby is a junior student at Stanford and is preparing herself for mechanical engineering as a profession. She is the only woman student ever registering in the mechanical engineering department here. Although Miss Ingoldsby spends most of her time working in overalls in the machine shop and foundry, she has taken part in many college activities including journalism, swimming, and as composer of the opera given by the junior class last year.

SAN FRANCISCO, Cal., Nov. 7.—An Australian champion is making his debut before a local boxing audience at Dreamland rink tonight. He is Jimmy Hill, featherweight king of Australia, who will meet "Monk" Fowler of New Orleans. Hill came to the United States several months ago to try to deprive Johnny Kilbane of his title, but was forced to take the count when he met Benny Valger, French featherweight in New York several weeks ago.

### CHOIR ENTERTAINMENT

The entertainment given Friday evening by the choir of the First Methodist Church of this city was a tremendous success. Not less than four hundred persons were present and their applause and laughter testified to their appreciation of the comedy portions of the program. The serious numbers which preceded the chief event of the evening (The District Skule) were also enjoyed. They were given by members of the choir and consisted of songs by Mrs. J. W. Jilison, Miss Eva Thede and Miss Zelma Lindley, violin numbers by Miss Lois Murphy and readings by Mrs. T. J. Meagher.

The District Skule was presented in three acts. The first covered the examination of applicants for the school by the School Trustees. There were four applicant teachers: Miss Dashaway (Mrs. Harding); Miss Belinda Sharp (Mrs. Miller); Miss Sallie Simple (Mrs. W. A. Goss); and Hezekiah Pendergrass (Mr. Miller). The trustee characters were taken by Messrs. Hopping, Turner and Webster. Applicant Pendergrass, who was thereafter the central figure in the comedy was selected because he could handle the big boys.

The second act covered the first day of school in which there were opening songs, classes in reading, arithmetic and spelling and a dinner hour in which lunch pails were brought out and their contents ranging from pancakes to weinies displayed for the amusement of the entertained.

The third act presented the last day of school and closing exercises which included songs, recitations and compositions given by the stuttering boy, the giggling girl, the school tough, the good girl who was "teacher's pet," and other outstanding pupils, with the school trustees and fond parents present as audience. All were dressed in as absurd costumes as could be assembled and the whole show furnished plenty of amusement for the audience. As an evidence of appreciation the choir received a request to repeat it.

Following the performance ice-cream, cake and candy were sold. While full returns are not in, there is every indication that they will net a substantial sum which will be applied on the subscription made by the choir to the church debt.

### THE LAST TRIBUTES

(Continued from Page 1)

of 1917 just before war was declared; how he first joined the 143d Field Artillery of the National Guard and was in this service for several months when, on account of his peculiar fitness and efficiency he was taken to Camp Kearny, thence to a camp in Georgia and from there to Camp Green in North Carolina where he was in training for several months. From this camp, as he related, Merle was sent to France in July, 1918. Shortly afterwards he was promoted to the Mechanics' Air Service and received instruction in an aviation school. "His ability and efficiency were always recognized," the speaker declared. "He rendered valuable service at the battles of St. Mihiel and Argonne and helped to bring up 240 airplanes at a critical hour for which he received 'Official Citation.' At Toul when on detached service a mustard bomb dropped by the Germans seriously affected his lungs and killed several of his comrades. It was not known even by his parents that he had been gassed in that terrible conflict until a short time ago. In some ways he was very reticent. He hated to disclose some of the things he had seen and the experiences he had gone through in France. On account of this accident he was compelled to take treatment for six weeks in France. This took place not long before the war closed. He left the service with the rank of Sergeant and would have received a commission but for the signing of the armistice. He was in the army two and a half years.

Dr. Soper also referred to his alert, cheerful, optimistic disposition "in which there was not a grain of pessimism," and to the joy his return brought to his family and friends. The fact that he was given back to them for these few months after they had passed through the agony of giving him up to service for his country, seemed to him one of the most comforting things about this sad event. He dwelt on his re-entry into the High School, the high place he held in the esteem of students and teachers, and the plans he had made for professional life in association with his father, and then briefly recounted the incidents of his last illness and death, the immediate cause of which was the formation of a blood clot in the spleen attributed to some injury of long standing, possibly due to the gassing he suffered at Toul or to the effects of vaccination for typhoid when he first entered the army and from which he was slow to recover. "He died," he declared, "for his country as much
